Author Index

Azzopardi , P., see King, S.M., 169

Battaglini, P.P., Galletti, C. and Fattori, P.
Cortical mechanisms for visual perception of object motion and position in space, 143
Borman, G., see Orban, G.A., 215
Bressler, S.L.
Interareal synchronization in the visual cortex, 37
Bullier, J., Schall, J.D. and Morel, A.
Functional streams in occipito-frontal connections in the monkey, 89
Butler , S.R., see Walsh, V., 1
Butler , S.R., see Walsh, V., 127

De Bruyn, B., see Orban, G.A., 215
Dow, B.M., see Yoshioka, T., 51
Dow , B.M., see Yoshioka, T., 71
Dupont, P., see Orban, G.A., 215

Farah, M.J.
Is face recognition 'special'? Evidence from neuropsychology, 181
Fattori, P., see Battaglini, P.P., 143
Frey, S., see King, S.M., 169

Galletti, C., see Battaglini, P.P., 143
Gochin, P.M.
The representation of shape in the temporal lobe, 99
Goodale, M.A., see Humphrey, G.K., 117

Herbert, A.M., see Humphrey, G.K., 117
Hietanen, J.K. and Perrett, D.I.
Motion sensitive cells in the macaque superior temporal polysensory area: response discrimination between self-generated and externally generated pattern motion, 155
Horel, J.A.
Perception, learning and identification studied with reversible suppression of cortical visual areas in monkeys, 199
Humphrey, G.K., Symons, L.A., Herbert, A.M. and Goodale, M.A.
A neurological dissociation between shape from shading and shape from edges, 117

King, S.M., Frey, S., Villemure, J.-G., Ptito, A. and Azzopardi , P.
Perception of motion-in-depth in patients with partial or complete cerebral hemispherectomy, 169

Levitt, J.B., Lund, J.S. and Yoshioka, T.
Anatomical substrates for early stages in cortical processing of visual information in the macaque monkey, 5
Lund, J.S., see Levitt, J.B., 5

Morel, A., see Bullier, J., 89
Mortelmans , L., see Orban, G.A., 215

Orban, G.A., Dupont, P., Vogels, R., De Bruyn, B., Borman, G. and Mortelmans , L.
Task dependency of visual processing in the human visual system, 215

Perrett, D.I., see Hietanen, J.K., 155
Ptito, A., see King, S.M., 169

Ringo, J.L.
Stimulus specific adaptation in inferior temporal and medial temporal cortex of the monkey, 191

Schall, J.D., see Bullier, J., 89
Schiller, P.H.
On the specificity of neurons and visual areas, 21
Symons, L.A., see Humphrey, G.K., 117

Vautin, R.G., see Yoshioka, T., 51
Villemure, J.-G., see King, S.M., 169
Vogels, R., see Orban, G.A., 215

Walsh, V. and Butler , S.R.
Different ways of looking at seeing, 1
Walsh, V. and Butler , S.R.
The effects of visual cortex lesions on the perception of rotated shapes, 127

Yoshioka, T., see Levitt, J.B., 5
Yoshioka, T., Dow, B.M. and Vautin, R.G.
Neuronal mechanisms of color categorization in areas V1, V2 and V4 of macaque monkey visual cortex, 51
Yoshioka, T. and Dow , B.M.
Color, orientation and cytochrome oxidase reactivity in areas V1, V2 and V4 of macaque monkey visual cortex, 71
